

# How **SmartTT Capacity** by TruckerTools

## Helps Brokers Increase Micro-Carrier Volume and Efficiency

More than

# 1.3M+

drivers currently use the Trucker Tools driver mobile app, which provides real-time information to truckers on available loads, routes, fuel stops, parking and more

Averages

# 72%

**tracking success rate.**

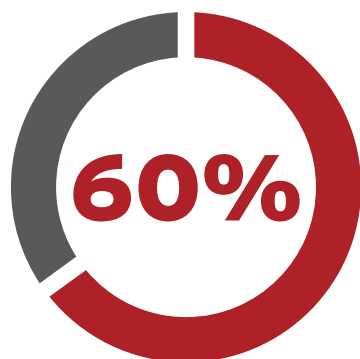

Unlike other solutions, Trucker Tools considers a track as successful only if the tracking starts and ends (origin and destination) and tracks in transit throughout

There are more than

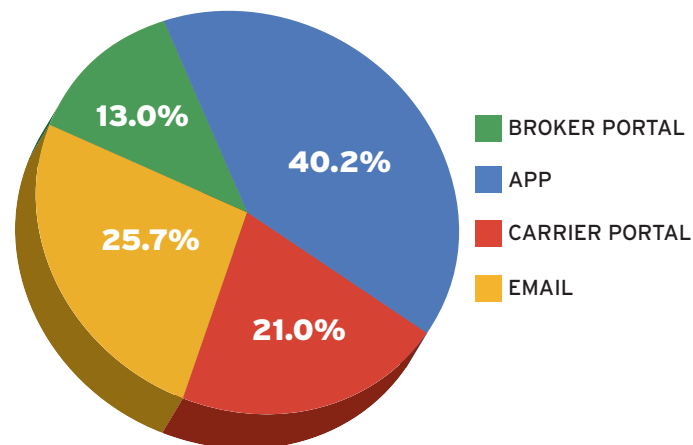

# 170,000+

owner operators and small carriers, who are currently using Smart Capacity, Trucker Tools' platform for carriers, brokers and 3PLs

Smart Capacity has 60 percent more success with owner operators in matching loads compared to the general broker market.
