

# CARRIER PERSPECTIVE: STATE OF THE INDUSTRY

## DETENTION

**60%**

report being detained for longer than two hours on each load.

**79%**

report that they never or rarely receive detention pay when they are detained for more than the industry standard of two hours.

**65%**

percent responded that detention pay has not increased or improved in the last year.

**83%**

of truckers run out of available hours as a result of detention.

## OPERATING COSTS

**28%**

replied that fuel costs alone are negatively impacting their business.

**45%**

say the price of fuel due to refineries being closed will have the biggest impact on the future of trucking.

*After labor, fuel is the largest expense in a trucking company's operations.*

**26%**

said that more truck drivers retiring will have the most significant impact on the industry in the long-term.

reason for carriers not expanding is the challenge of hiring qualified drivers.

**80,000**

fewer drivers on the road now compared to one year ago.

## TECHNOLOGY

**20%**

said their interactions with brokers and 3PLs have become easier with digital technology.

**76%**

percent reported that they use technology to build relationships with brokers and 3PLs.

**24%**

reported they are leveraging technology to a high degree.
